朋友们, iPhone12 升级 iOS 17 之后会比 16.5 好用吗, 16.5 太太太烫了

好用

不好用

...

For comparison here is how long the previous counter-offensives took:

- 1. Kyiv: 1 month, 1 week and 4 days
- 2. Kharkiv: 3 weeks and 5 days
- 3. Kherson: 2 months, 1 week and 6 days

74,443 km2 liberated

Shashank Joshi @shashj · 1h

.@konrad_muzyka: "So far, the Ukrainian counteroffensive has been relatively successful ... we expect this attack to look more like the summer Kherson offensive rather than what occurred in the Kharkiv Oblast. It will likely be a prolonged campaign spanning weeks if not months"

有趣的功能

不仅仅是打包

样式改写注入

JS 逻辑注入

手动去广告

基础控件补齐

极致 Web 能力

工程建设 - 命令行

 `npm i pake-cli -g`

设计点

- 必要配置放出并且满足简单使用
- 国内特殊网络环境镜像替换加速
- 同时兼容 Mac/Windows/Linux 用户使用
- 作为基础能力提供给 Github Actions

痛点

- Rust 打包首次编译并没有那么快
- Windows 系统复杂的环境如何解决

有趣的功能

~ 🍁 pake

```
$ pake https://weekly.tw93.fun --name Weekly --transparent
```

Arguments:

url

Options:

```
--name <string>
--icon <string>
--height <number>
--width <number>
--no-resizable
--fullscreen
--transparent
--user-agent <string>
--show-menu
--show-system-tray
--system-tray-icon <string>
--iter-copy-file
--multi-arch
--targets <string>
--debug
```
